WHY CASE MANAGERS SEND CLIENTS HERE

When a client is hurting, delay costs you both. We get new auto-injury patients in quickly, examine thoroughly, and communicate directly - so you always know where treatment stands and what the file will show at settlement.

CARE & ACCESS

- **Seen within 48 hours.** New auto-injury patients are scheduled promptly after referral.
- **Detailed examinations.** Thorough initial and re-examinations that document injury, progress, and functional status.
- **Direct communication.** Straightforward updates on treatment status - no chasing for answers.

BILLING & DOCUMENTATION

- **Third-party billing, your way.** Most clients have no PIP: hold on lien to settlement, or bill health first - your choice. PIP first if present.
- **Settlement-ready documentation.** Timely, organized records prepared with settlement in mind.
- **Records in 3 business days.** Treatment records and re-exam reports within 3 business days of request.
